Profile

I grew up in a family that always valued education, and I have loved learning for as long as I can remember. Through my father I was exposed early to finance, business and economics. I liked what I saw, and that curiosity led me to study Business Administration, where, from my first semesters, I admired my professors for their teaching, their knowledge and their contributions to science. Their example stayed with me, and today I know exactly what I want for my future: to become a researcher and professor who pushes my field forward and shapes critical minds. I feel this is my *Personal Legend*. After completing my MSc in Finance, I plan to pursue a PhD to build the skills this path requires.

Education

Master of Science, Business Administration (Finance, GPA: 8.73/10) *February 2025 – February 2027*
FGV EAESP – Fundação Getulio Vargas, São Paulo, Brazil

- **Master's Thesis:** *Critical Minerals and Rare Earth Exposure Risk and Firm Value: International Evidence from Earnings Conference Calls* (in progress).
Advisor: Dr. Wesley Mendes-da-Silva.
- **Relevant Coursework:** Corporate Finance, Asset Pricing, International Finance, Econometrics and Causal Inference, Quantitative Research Methods, Quantitative Methods Applied for Corporate Finance, Capital Structure, Corporate Restructuring & Governance, Research Topics on AI.

Bachelor of Business Administration (GPA: 8.92/10) *February 2020 – December 2024*
Universidade Federal de São Carlos (UFSCar), Sorocaba, Brazil

- **Undergraduate Thesis:** *Blockchain and its Applications: A Systematic Review and Bibliometric Analysis*.
Advisor: Dr. Paula de Camargo Fiorini.
- **Relevant Coursework:** Calculus I & II, Applied Statistics I & II, Macroeconomics I & II, Corporate Finance I & II, Financial Statement Analysis I & II, Economic Theory.

Working Papers

- Mendes-da-Silva, W., Flores, E., Brandão, J. G. S., & **Santos, A. A.** (2026). *Perceived Bottlenecks: Managerial Attention, Lithium Salience in the Energy Transition*. [SSRN #6735705](#). Revise & Resubmit, *Energy Economics* (revised version submitted).
- **Santos, A. A.** (2026). *Carbon Credits and Finance: A Systematic Literature Review and Bibliometric Analysis*. Working paper.
- Montagner, C. A. R., Magalhães, M. G. B., & **Santos, A. A.** (2026). *AI Supervision in Strategic Decision Support: Generative AI, Cognitive Compression, and Exploratory Breadth*. Working paper.

Conference Presentations

- **Santos, A. A.** (2026). *Carbon Credits and Finance: A Systematic Literature Review and Bibliometric Analysis*. 50th Encontro da ANPAD (EnANPAD), Finance Division (Fortaleza, Brazil, September 2026).
[86th Academy of Management Annual Meeting \(AOM\)](#), Organizations and the Natural Environment Division (Philadelphia, USA, August 2026).
[5th International Conference on Alternative Finance Research \(ICAFR\)](#) (Málaga, Spain, April 2026).
- Mendes-da-Silva, W., Flores, E., Brandão, J. G. S., & **Santos, A. A.** (2026). *Perceived Bottlenecks: Managerial Attention, Lithium Salience in the Energy Transition*. 50th Encontro da ANPAD (EnANPAD), Finance Division (Fortaleza, Brazil, September 2026).

- Montagner, C. A. R., Magalhães, M. G. B., & **Santos, A. A.** (2026). *AI Supervision in Strategic Decision Support: Generative AI, Cognitive Compression, and Exploratory Breadth*. [9th Encontro de Administração da Tecnologia da Informação \(EnATI\)](#) (São Paulo, Brazil, June 2026).
- **Santos, A. A.**, & Fiorini, P. C. (2021). *Blockchain e suas aplicações: uma revisão sistemática e análise bibliométrica* (in Portuguese). [45th Encontro da ANPAD \(EnANPAD\)](#) (Online, October 2021). [4th Simpósio de Engenharia, Gestão e Inovação \(SENGI\)](#) (Online, August 2021).

Invited Talks & Panels

- Invited Panelist, *50 Years of Academic Research in Finance in Brazil and the Agenda for the Future*, 50th EnANPAD (Fortaleza, Brazil, September 2026).
Co-presented with Dr. Janaína Grossi a segment on researcher productivity, graduate programs, and collaboration networks in finance in Brazil.

Research Experience

Graduate Research Assistant

February 2025 – Present

FGV EAESP – Fundação Getúlio Vargas, São Paulo, Brazil
Supervisor: Dr. Wesley Mendes-da-Silva.

- Co-authored an empirical study of managerial attention to critical-mineral supply risk, contributing to research design, textual measure construction, panel estimation, and manuscript writing and revision; applied NLP-based analysis to 23,160 earnings call transcripts retrieved from LSEG Workspace for 659 listed firms in the US, UK, and Nordic markets (2016–2026), and built the replication repository.
- Conducted a sole-authored PRISMA 2020 systematic review of 342 Scopus-indexed articles on carbon credits in finance, combining VOSviewer bibliometric mapping with a regex-based classification of econometric methods; documented that only 5.0% of the literature applies strict causal identification, with no regression discontinuity or synthetic control designs.

Undergraduate Research Assistant

February 2020 – January 2021

Universidade Federal de São Carlos (UFSCar), Sorocaba, Brazil
Supervisor: Dr. Paula de Camargo Fiorini.

- Conducted a systematic literature review and bibliometric analysis of blockchain applications across 1,552 Scopus-indexed articles; applied VOSviewer for co-citation mapping and R (bibliometrix) to measure publication productivity and citation impact.

Undergraduate Research Assistant

February 2020 – December 2021

Study Group on Strategic People Management, Universidade Federal de São Carlos, Brazil
Supervisor: Dr. Cristina Lourenço Ubeda.

- Conducted applied research on strategic people management, co-authoring two open-access institutional guides on employability and professional development (UFSCar/CPOI, 2020), distributed through the university's institutional repository.
- Delivered community training workshops translating research findings into practical guidance for local job-seekers.

Applied Research

Anuário Brasileiro de Resíduos Municipais, Edição 2026

July 2026 – Present

Independent project in partnership with Hardrada, Brazil. *Forthcoming, 2026*.
Co-authored with Dr. Wesley Mendes-da-Silva.

- Produced a municipal benchmarking report covering 2,000 Brazilian municipalities on waste management, sanitation performance and on the technical potential for energy recovery through thermoconversion.

- Built the municipality-level panel for 2,000 municipalities, researching, consolidating and creating over 50 variables from federal and state administrative records: SINISA/SNIS, IBGE (Census 2022, PEVS/SIDRA, municipal GDP), Atlas Brasil IDHM, PNTP/Atricon, and ANEEL-SIGA.
- Computed geospatial accessibility variables via the Google Routes API and validated municipal coordinates through a stratified audit; published the replication code on GitHub.
- Developed the 0–100 composite scoring methodology across five performance dimensions.

Industry Experience

Itaú Unibanco

São Paulo, Brazil

*Portfolio and Analytics Management Analyst, Tech**April 2023 – January 2025*

- Drove continuous improvement of the technology directorate's budget, managing financial planning, forecast cycles and variance analysis with large-scale data across IT infrastructure portfolios within the Tech One Itaú and Growth division.
- Identified and prioritized critical infrastructure modernization opportunities, coordinating upgrade initiatives that generated US\$10 million in annual cost savings for the bank.

*Portfolio and OKRs Management Analyst**April 2022 – March 2023*

- Led simultaneous modernization and expansion projects migrating IBM mainframe infrastructure to Amazon AWS environments, acting as Product Owner and Team Lead across multiple concurrent initiatives and managing project backlogs and delivery timelines with cross-functional teams.
- Implemented and monitored OKRs across departments, conducting strategic initiatives for operational and financial efficiency (FinOps, Backlevel, MIPS).

*Risk Control Intern**December 2020 – March 2022*

- Created and monitored risk indicators and dashboards through large-scale data analysis ensuring compliance with Central Bank of Brazil (BACEN) regulations.
- Developed risk dashboards in Tableau and SAS SQL for KPI tracking and proactive risk management.

Leadership & Service

- Vice President, Centro Acadêmico IX de Setembro, Universidade Federal de São Carlos (2022). Organized the *Semana da Administração da UFSCar* and a year-long speaker series.
- People & Performance Analyst, META Empresa Jr., Universidade Federal de São Carlos (2020). Contributed to three consulting projects for client companies.

Awards & Honors

- Full Scholarship, CAPES – Coordination for the Improvement of Higher Education Personnel, Brazilian Ministry of Education (2025 – Present).
- Bitcoin Talents Fellow, Frankfurt School of Finance & Management, Germany (2025).
- Winner, Talentos em Ação, Innovation Category – Project Orange Coin, Itaú Unibanco (2022).

Software & Computer Skills

- **Financial Data Platforms:** Bloomberg Terminal, LSEG Workspace, FactSet.
- **Programming & Statistical Software:** Python, R, Stata, SQL and $\text{\LaTeX}$.
- **Data Visualization and Research:** Tableau, Power BI, QuickSight, VOSviewer and Bibliometrix.
- **Productivity and Tools:** Microsoft Office Suite, Amazon AWS, Agile.

Languages

- Portuguese (Native), English (Fluent), Spanish (Fluent), Galician (Beginner).
